

Control the Drone to Control the Threat – EnforceAir Counter-Drone C-UAS System

Tested, Selected & Trusted by the Top Tier

- Hundreds of worldwide deployments
- Tested, selected & trusted by operational units & security agencies in sensitive environments
- Protecting large-scale events & high-level VIPs globally

Four Core Concepts for Continuity

Four key concepts, all generating operational continuity, form the heart of D-Fend Solutions' approach:

Control – the best way to control the drone threat & ensure continuity is to take control of the drone

Safety – a safe landing or fend-off of the drone is the optimal outcome for safe airspace & continuity

Focus – counter-drone measures must focus on the most dangerous drones

Future – the increasingly complex challenge requires always staying a drone threat ahead

Cyber Takeover – Cyber Meets Counter-Drone

EnforceAir, our flagship counter-drone offering, is the industry-leading cyber, radio frequency (RF)-based takeover technology that provides end-to-end detection and mitigation for situational awareness and operational continuity.

The autonomous system:

- Detects, locates & identifies rogue drones
- Takes control in any scenario or environment
- Neutralizes the threat by allowing you to take full control of the drone and land it safely

EnforceAir Capabilities Across the Rogue Drone Incident Lifecycle

Detect & Alert * Locate & Track *

Identify * Fend-Off * **Take Control & Land**

Future-Ready – Always A Drone Threat Ahead

Continuous software updates result in an up-to-date response to new drone models & DIY radio components.

What We are NOT and Why – Non-Jamming, Non-Kinetic

Commerce, transportation & everyday life smoothly proceed, because D-Fend's system does not rely upon jammers or kinetic technology. Authorized drones continue functioning.

Focused on the Real Threat – The Dangerous Drones

D-Fend Solutions focuses on the real threat – dangerous, rogue drones. We cover drones that:

- Fly long distances
- Carry heavy payloads
- Can travel in heavy winds & inclement weather
- Are prevalent and accessible

Varied Deployments Options for Operational Flexibility

EnforceAir provides the ultimate in operational agility & flexibility. Its core elements can be easily set up, transferred, mounted & configured within minutes.

Deployment bundles:

- **Homeland Security & Law Enforcement** - Vehicular, tactical, stationary & backpack
- **Military** - Vehicular, tactical, stationary & backpack

Deployment options:

- **Vehicular** - mobile protection for military & civilian
- **Tactical** - tripod mounted, lightweight, portable, and easy to assemble
- **Stationary** - pole mounted, low and high-altitude installations
- **Long-Range Directional** - stationary, long-range coverage
- **Backpack** - man-portable, on-the-move

A Solution for Every Scenario – Supported Environments

Military * National Security * Law Enforcement *
Airports * Borders * Ports and Harbors * VIP Executive
Protection * Maritime Operations * Critical Infrastructure *
Enterprise Business * Events * Stadiums * Media *
Prisons * Landmarks & Government Buildings * First
Responders * Local Government * Safe City
