

Quality, Safety, and Environmental Policy

D-Fend Solutions AD Ltd. (the “**Company**”) develops defense systems to handle drone threats, focusing on the implementation of an integrated quality management system to achieve its goals. The integrated management system (quality, environment, and safety) was developed according to ISO-45001:2018, ISO-14001:2015, AQAP 2110 and ISO-9001:2015 standards.

The Company is committed to continuous quality improvement of processes and services for its customers, leading to maximum stakeholders’ satisfaction. The Company follows laws, regulations, standards, and specification requirements that are relevant to its field. The Company ensures a safe and healthy work environment and systematically evaluates environmental, safety, and health risks while working to reduce and prevent them.

The Company's management allocates the necessary resources to improve quality, reduce hazardous environments, and increase safety and health at work. The company invests in knowledge development and employee training in these areas, encouraging employees to work towards their promotion.

The integrated quality system will be reviewed periodically to ensure its implementation, current and latest updates, and its effectiveness in achieving the goals.
